BATTLE SONGS ECHOED

IN NEW YORK STREETS

New York, Aug. 3.—The martial air of Germany, France and Austria, rings through the streets here today. Fired by national patriotism, many of the sons of the three countries named banded themselves into three separate bodies and paraded the streets singing and cheering for the rulers in their home lands. Most of the marchers carried small flags.

At the Austrian headquarters the crowd of men that sought passage for their home country so that they could take up arms in its defense was so great that the police reserve had to be called out. More than a score of girls were in the crowd, eager to go back home and act as army nurses.

Fervent excitement prevailed at the French consulate following the sending out of the mobilization order. Hundreds of Frenchmen responded almost immediately to the call and each hour increased the total.

Three thousand German presented themselves at the German consulate storming the officials with their pleas to be sent back to fight for their home country.

TO JOIN FRENCH FLEET.

Old Point Comfort, Va., Aug. 3.—According to orders received here today the Klips (formerly the U. S. S. Mississippi) will sail for Algiers. The Klips will take fuel and coal and proceed to Villefranche, near Nice, where she will join the Lennox (formerly the U. S. S. Idaho) which is now en route there. Both ships will join the French fleet which already is the most powerful in the Mediterranean.

WAR BULLETINS

Washington, Aug. 3.—The first trans-Atlantic liner, carrying upward of 10,000 passengers and crews to the number of about 12,800 men, are on the high seas today according to figures gathered at the local offices of the leading steamship companies.

In the event of a declaration of war by England the majority of these vessels would be liable to capture. The ships operated by the International Mercantile Marine Company flying the American colors two owned by the Holland-American Line and two Scandinavian-American Line boats are all that would be immune.

The vessels sailed between July 31 and Aug. 1 and some of them are nearing ports of destination.

The Mauretania with a total passenger list of about 1,400 and a crew of 800; the Carmania, with 1,100 passengers and a crew numbering 300; the Olympic, with 1,100 passengers and a crew of 360 and the Kronprinzessin Cecilie carrying in all 1,400 passengers and a crew of 500, are among the vessels now at sea.

A list of all steamships now on the high seas follows:

MUTIA'S GHOST IS BOTTLED UP

Enlisted Men Won't Be Paid Until They Return to Washington.

HOWL OF INDIGNATION

"Broke" or Otherwise, However, District Soldier Boys Are Too Busy to Bother Much.

BY STAFF CORRESPONDENT.

Rifle Range Camp, Virginia Beach, Va., Aug. 3.—Indignation reigns throughout the rank and file of the District of Columbia militia today. The enlisted men were surprised by the announcement that they were not to get their pay until they return to Washington.

When they learned that the officers were all to be paid off at camp, a howl of protest went up from all the enlisted men, but it got them nothing. They had been expecting to be paid off here. Paymaster Clark arrived last week and completed his payroll Sunday. The reason for the decision announced today could not be ascertained.

The guardsmen will have to wait for their money until they have turned in their accounts at the army.

Every piece will be checked off as turned in and they will be charged, it is said, for any article that may be missing.

Work and Fun, Too.

But this did not stop the fun here. Washington's citizen-soldiers are working hard almost every hour in the day, but they seem never to tire of it. Under a broiling sun today, in company and battalion formation, they worked out all the intricate problems preliminary to the big militia war game to be staged Thursday. As if this were not enough, they gave another fine dress parade in the afternoon while thousands cheered. The men are now thoroughly acclimated and fit for the trying work which will close the camp.

The Twenty-ninth Infantry is here to participate in the sham battle.

The first official visit of the year among the District Guardsmen took place today, when the officers of the First Infantry called on those of the Second. It was a surprise party, in their white uniforms, the boys of the First made a dandy appearance. The Second's officers probably will return the visit Wednesday.

Rifle Gen. Harries went to New York today, but will return Wednesday. Col. Charles H. O'Rand was left in command. Maj. E. H. Neumeier, in charge of the company department, reached camp today.

War bulletins are received twice a day from Washington and posted throughout the camp.

They cause much comment, especially among the veterans. The whole First and Second regiments were bathing together again today, while two bands played and scores of life guards hovered near.

Work, Work, and Work.

War exercises will begin at the camp Thursday morning and from now until the camp period closes, there will be work for the militia and little else but work, at the game of mimic war.

The Signal Corps, for the past few days has been engaged in reducing this section of Tidewater Virginia. The roads have been mapped, the best strategic positions outlined and Virginia Beach, topographically speaking, has been placed on a war basis.

The Signal Corps' operations have extended south of the camp and along the beach. A field wire is to be set up, but it is not yet in communication with the "enemy." All work was abandoned this afternoon, however, when the Signal Corps went for a dip. In an effort to get the latest dispatches, the signal men will try to pick up messages sent and received by the wireless station at Arlington.

Gen. Awakes Them.

As soon as the morning sun beamed over the camp today, the guardsmen jumped from their cots and rushed for the mess tent, where hot breakfast was served. After an hour's drill without leaves, the men were marched back to the company streets where rifles were issued.

More drills, this time with guns, followed. Several of the lieutenants of the National Guard were taken out on the mud dunes by the regular army officers in charge of the camp and given a new lesson in commanding men. The buglers were put through a bugle drill and it sounded for a time like the village concert band practicing for the May strawberry festival.

Only six members voted against the bill in the House. They were all Progressives.

Asked by Representative Hulings during debate on the measure if he believed it would be necessary to make use of this money, Chairman of the Banking and Currency Committee, replied:

"I hope it will not be necessary to issue one dollar of it. I believe the moral effect of the action of the House will be such that confidence will be restored and this money need not be used."

Secretary McAdoo declared on his return from New York that the bill authorized by the \$500,000,000 authorized by the Aldrich-Vreeland emergency currency act, only \$45,000,000 has been sent to New York and this has been drawn on heavily. He declared that no occasion exists for the exercise by him of the discretionary power vested in him by the act.

The House and Senate conference yesterday.

OSTEOPATHS OPEN CONVENTION.

Two Thousand Doctors Are Holding Clinics at Philadelphia.

Philadelphia, Pa., Aug. 3.—Two thousand osteopaths gathered here today for a five days' session. This is officially the annual convention of the American Osteopathic Association. Dr. Percy H. Wood, of Birmingham, Ala., president of the association, will preside.

The most spectacular feature of the convention will be a lecture by Dr. James A. Edwards, of St. Louis, the discoverer of the new osteopathic cure of catarrhal deafness.

GERMAN WARSHIP BOMBARDS RUSSIAN PORT OF LIBAU.

Special Cable to The Washington Herald.

Amsterdam, Aug. 3.—The German cruiser Augsburg is bombarding Libau, the important Russian port on the Baltic, according to reports received here. Libau is burning. A Russian cruiser has attacked the Augsburg.

Libau has a population of more than 75,000. Its artificial harbor was constructed by Russia at a cost of \$10,000,000. It is in Court, and southwest of Riga. The harbor was mined last week in expectation of an attack.

AUSTRIANS DEFEND BORDER AGAINST SERB INVADERS.

Vienna, Aug. 3.—The newspapers report serious fighting on the river Rava. Austrian frontier guards are opposed by a force of Serbian volunteers, who are attempting to invade the dual monarchy.

The foregoing dispatch, direct from Vienna via London, makes no mention of any attempt on the life of Emperor Francis Joseph. It is believed the report published in London is a false rumor.

PILLAGE GERMAN SHOPS IN PARIS.

Paris, Aug. 3.—The pillage of a German jewelry store in Paris and raids against the stores of merchants who have raised the prices of necessities, caused the prefect of police today to placard an appeal to Parisians to maintain order. Vigorous measures are to be taken against dealers charging exorbitant rates.

CONGRESS IN BRIEF.

SENATE.

Senate continued debate on trade commission bill.

President Wilson was authorized to send delegates to International Congress on Social Insurance, to be held in Paris in September.

Coinage of special gold and silver pieces to commemorate Panama-Pacific Exposition was authorized.

Senate passed Weeks bill providing for use of number of smaller naval vessels for carrying of freight, mail, and passengers.

Paul H. Warburg, of New York, completed testimony before the Banking and Currency Committee, which decided favorably to report his nomination to serve on the Federal Reserve Board.

After a night session, Senate adjourned until 11 o'clock today.

HOUSE.

Three emergency measures, made necessary by European war, engaged entire attention of House.

After receiving President's message urging such an appropriation, House passed bill appropriating \$50,000 for relief, protection, and transportation home of American citizens now stranded in Europe.

Bill was also passed to liberalize registration laws and uphold merchant marine, to relieve congestion in sea traffic incident to war by removing certain restrictions against the American registry of foreign-built vessels.

Three measures passed were Senate bill amending currency law to make more readily accessible to national banks, State banks, and trust companies in the Federal reserve system \$500,000,000 of emergency currency now in the Treasury vaults.

Emergency currency bill, designed to allay financial unrest, passed by vote of 341 to 5. Other two measures passed on viva voce vote.

Representative Underwood served notice that quorum must be kept during entire session, and call was sent out for all absent members.

Routine bills on unanimous consent calendar were considered after passage of emergency bill mentioned.

Adjourned until noon today.

OUTWIT THE WAR STORM

CONTINUED FROM PAGE ONE.

was honored immediately by the passage of the necessary joint resolution by both Houses.

Everything worked under suspension of the rules in the House yesterday. The air was charged with excitement as the House rushed through three important measures, on only one of which, the emergency currency bill, was a roll call asked.

Murdoch Opposes Bill.

Victor Murdoch, leader of the small group of Progressives in the House, opposed the bill, which, as finally agreed by the conferees, authorizes the Secretary of the Treasury to issue on proper securities emergency currency to national banks up to 10 per cent of their unimpaired capital and surplus. As the bill came from the Senate, it had two restrictions upon the amount to be authorized. The aggregate was limited to \$500,000,000 and the amount to be issued to each bank was limited to the amount of its unimpaired capital and surplus.

Both of these restrictions were knocked out in the House, and the Senate immediately asked for a conference.

The conferees endeavored to reconcile their differences before the House adjourned, but failed to do so.

The agreement also requires the deposit in the Treasury of the gold equivalent of five per cent of the currency issued to each bank, or more, in the discretion of the Secretary.

Charles C. Glover and Milton E. Allen, of the House, and Charles C. Glover, of the Senate, were House leaders, before the House met.

Six More Against It.

Only six members voted against the bill in the House. They were all Progressives.

Asked by Representative Hulings during debate on the measure if he believed it would be necessary to make use of this money, Chairman of the Banking and Currency Committee, replied:

"I hope it will not be necessary to issue one dollar of it. I believe the moral effect of the action of the House will be such that confidence will be restored and this money need not be used."

Secretary McAdoo declared on his return from New York that the bill authorized by the \$500,000,000 authorized by the Aldrich-Vreeland emergency currency act, only \$45,000,000 has been sent to New York and this has been drawn on heavily. He declared that no occasion exists for the exercise by him of the discretionary power vested in him by the act.

The House and Senate conference yesterday.

STEAMERS NOW AT SEA CARRY 31,800 SOULS

Upward of 19,000 Passengers and Crews Numbering 12,800 Are En Route to or from America.

MAJORITY LIABLE TO CAPTURE

New York, Aug. 3.—Thirty trans-Atlantic liners, carrying upward of 19,000 passengers and crews to the number of about 12,800 men, are on the high seas today according to figures gathered at the local offices of the leading steamship companies.

In the event of a declaration of war by England the majority of these vessels would be liable to capture. The ships operated by the International Mercantile Marine Company flying the American colors two owned by the Holland-American Line and two Scandinavian-American Line boats are all that would be immune.

The vessels sailed between July 31 and Aug. 1 and some of them are nearing ports of destination.

The Mauretania with a total passenger list of about 1,400 and a crew of 800; the Carmania, with 1,100 passengers and a crew numbering 300; the Olympic, with 1,100 passengers and a crew of 360 and the Kronprinzessin Cecilie carrying in all 1,400 passengers and a crew of 500, are among the vessels now at sea.
